MARK SIMON Z. BRINGAS

Baguio City, Philippines • github.com/msimonb05 • markymatics.pages.dev • linkedin.com/in/mark-simon-bringas

Software Developer | Back-End Development, Applied AI & Data, IT Project Leadership

EDUCATION

University of Baguio — **Baguio City, Philippines**

Bachelor of Science in Computer Science | GWA: 93.89 — *June 2027*

Relevant Coursework: Data Structures and Algorithms; Software Engineering; Advanced Database Systems; Intelligent Systems; Introduction to Data Science; Probability and Statistics; Project Management

LEADERSHIP AND PROJECT EXPERIENCE

SRLAAS: Service Records, Leaves Application and Approval System — **Baguio City, Philippines**

Research Leader & Back-End Lead, Service Records Subsystem — *Aug 2026 – Present*

- Lead a 4-member team (of 8) replacing paper service records for DepEd SDO Benguet's 5,000+ employees.
- Architect the Service Records microservice (Node.js, Express, MongoDB Atlas) with an append-only audit log that tracks step increments and loyalty-pay milestones and sends 60-day reminders for missed promotions.
- Co-authored the 129-requirement specification and 14-iteration Scrumban roadmap; engineered HMAC-signed webhooks with a transactional outbox and CI/CD (GitHub Actions, Docker, Kubernetes).

The Meeting Place Point-of-Sale System (TMP-POS) — **La Trinidad, Benguet, Philippines**

Project & Technical Lead — *Feb 2025 – Dec 2025*

- Directed a 5-member team through architecture and delivery of a restaurant POS using Rapid Application Development, with monthly prototype reviews alongside the manager; the system remains in use.
- Engineered the MongoDB data model and Node.js/Express back end (EJS views) for orders, payments, refunds, attendance, and sales reports, cutting average transaction time by 48% versus manual processing.

UFitness: Mobile Fitness App for Students — **Baguio City, Philippines**

Project Manager — *Jan 2026 – May 2026*

- Managed a 5-member team (Trello) that shipped a React Native (Expo) app with 100+ campus downloads.
- Implemented the database and authentication with Cloud Firestore and Firebase Auth (email and Google sign-in).

Unified Barangay Information and Service Hub (UBISH) — **Baguio City, Philippines**

Project Lead — *Mar 2025 – May 2025*

- Led a 4-member team through a 3-month build for Barangay Greenwater Village (1,500+ residents).
- Developed most of its PHP/MariaDB back end, from admin-approved accounts to certificate requests.

PERSONAL PROJECTS

DisasterAlertBot: Local Disaster Preparedness Chatbot — **github.com/msimonb05/disaster-alert-bot**

Lead Developer (Personal Project) — *Nov 2025 – Dec 2025*

- Built a locally hosted RAG chatbot (Llama 3.2 via Ollama, LangChain, Hugging Face) grounded in a self-compiled 5-document knowledge base, including emergency hotlines for 146 cities.
- Integrated live OpenWeatherMap and Serper data via a Flask/FastAPI back end for location-based alerts (Docker).

markymatics: Personal Portfolio Website — **github.com/msimonb05/markymatics**

Designer & Developer (Personal Project) — *Oct 2026 – Present*

- Designed and built an Astro and Tailwind CSS site with a spam-protected serverless contact form.

LEADERSHIP & ACTIVITIES

SIT Honor Society, University of Baguio — Member and Maths Coordinator — Sep 2025 – May 2026

- Organized and facilitated peer math tutoring, coordinating tutors from the school's 50+ honor students.
- Ran math-related IT events on campus and volunteered at school-wide events.

ONE KALINGA — AI.DEAS for Impact: LGU Reverse Pitching — Apr 2024

- Co-developed and pitched a trilingual AI chatbot e-governance concept to Province of Kalinga stakeholders.

SKILLS & CERTIFICATIONS

Languages: JavaScript, Python, SQL, PHP, HTML, CSS
Back-End & Web: Node.js, Express, REST APIs, microservices, Socket.IO, Flask, FastAPI, React, React Native
AI & Data: RAG, LangChain, Ollama, Hugging Face, pandas, SciPy, Matplotlib, seaborn, statistical analysis
Databases & Cloud: MongoDB, MariaDB, Firebase, Cloudflare R2, Cloudflare Pages, Render
DevOps & Tools: Git/GitHub, GitHub Actions, Docker, Kubernetes, Vitest, Trello, GitHub Projects
Certifications: ASEAN Foundation AI Fundamentals (2026); Cisco Introduction to Cybersecurity (2025); Cisco CCNA: Introduction to Networks (2024)
